CURRENT LIST of MEDICAL LITERATURE

Vol. 12 April 11, 1947 No. 12

SUBJECT GROUPS ACCORDING TO JOURNALS

* 1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
* 5. Bacteriology; Parasitology
* 6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
* 9. Cardiovascular System
*10. Chemistry; Physics
*11. Dentistry; Stomatology
*12. Dermatology
*13. Diagnosis; Clinical Methods
*14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
*19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
*22. Homeopathy; Osteopathy, etc.
*23. Hospitals
24. Immunology; Serology
*25. Industrial Hygiene; Sociology
* 26. Infectious Diseases; Epidemiology
* 27. Medicine
28. Metabolism
* 29. Military and Naval Medicine
* 30. Miscellaneous
* 31. Neurology; Psychiatry
* 32. Nursing
* 33. Ophthalmology
* 34. Otorhinolaryngology; Phoniatry
* 35. Pathology
* 36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
* 38. Physiology
* 39. Psychology; Mental Hygiene
* 40. Public Health; Sanitation
* 41. Radiology; Phototherapy
42. Respiratory System
* 43. Surgery; Traumatology
44. Therapeutics
* 45. Tropical Medicine
* 46. Tuberculosis
* 47. Urology
* 48. Venereal Diseases; Sexology
* 49. Veterinary Medicine
50. Zoology

THE ARMY MEDICAL LIBRARY
Washington, D. C.

ARMY MEDICAL LIBRARY
PHOTODUPLICATION SERVICE

Effective 1 February 1947 free photoduplication service must be discontinued and services will be rendered at the prices listed below. This is necessary to meet the cost of the service.

The following conditions will be observed:

1. All orders must be accompanied by payment in cash or by money order payable to the Treasurer of the United States. Only governmental agencies are exempted from this requirement. Stamps must not be used in payment.

2. Orders must be submitted on a signed official order blank, a supply of which will be furnished on request.

3. Copies of articles from U. S. journals of general distribution published in the current year will not be supplied without special permission on the assumption that these will be available from the publisher.

4. Copies of entire books will not be supplied without the written permission of the U. S. copyright holder.

5. Official requests from the War Department will be filled free of charge. These requests should be routed through the post or hospital librarian or Commanding Officer.

6. Services to other governmental agencies will be billed periodically by Standard Form 1080 (Voucher).

PRICE SCALE

Microfilm:

Periodical Articles--a flat charge of 50 cents for any article in a single volume of a periodical.

Books and Serial Publications--50 cents for each 50 pages or fraction thereof.

Photoprints (Photostat):

50 cents for each 10 pages or fraction thereof from any single volume.

N.B. Because of the difficulties currently involved in securing foreign exchange in many parts of the world, special arrangements will be made for supplying microfilm to persons and institutions outside the United States and Canada. Such persons are invited to write directly to the Library regarding the conditions under which they can make use of the microfilm services of the Army Medical Library.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., $3.00 per year ($3.75 foreign) 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents at the above address.

Published weekly by the ARMY MEDICAL LIBRARY, 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the War Department. Lists all articles of medical interest contained in current journals received. Subject index provided monthly. Exchange invited.

CURRENT LIST OF MEDICAL LITERATURE
Vol. 12, No. 12 April 11, 1947

1. Anatomy; Histology

Am. J. Anat., 1947, 80: No. 1. (Jan.)

DEMPSEY, E. W., & WISLOCKI, G. B. Further observations on the distribution of phosphatases in mammalian placentas. 1-33, incl. 5 pl.

RUTH, E. B. Bone studies; fibrillar structure of adult human bone. 35-53, incl. 3 pl.

CHAMBERS, W. W., jr. Electrical stimulation of the interior of the cerebellum in the cat. 55-93.

RASMUSSEN, A. T. The growth of the hypophysis cerebri (pituitary gland) and its major subdivisions during childhood. 95-116.

MILLER, R. A. The inguinal canal of primates. 117-42.

5. Bacteriology; Parasitology

Mycologia, 1947, 39: No. 1. (Jan.-Feb.)

DRECHSLER, C. A nematode-strangling Dactylella with broad quadriseptate conidia. 5-20.

STUNTZ, D. E. Studies in the genus Inocybe; new and noteworthy species from Washington. 21-55.

KARLING, J. S. Brazilian chytrids; new species with sunken opercula. 56-70.

MIX, A. J. Taphrina osmundae Nishida and Taphrina higginsii sp. nov. 71-6.

SINGER, R. New genera of fungi. 77-89.

OLIVE, L. S. Notes on the Tremellales of Georgia. 90-108.

JONES, R. C. The Feulgen reaction as a cytological technique with Allomyces arbuscula. 109-12.

SEAVER, F. J. Photographs and descriptions of cup-fungi; Seaverinia . 113-9.

KERN, F. D., & WEST, E. Another gymnosporangial connection. 120-5.

6. Biology; Embryology

Bull. Math. Biophys., 1946, 8: No. 3 (Sept.)

RASHEVSKY, N. Some considerations on the structure of quadruped extremities. 83-93.

OPATOWSKI, I. The probabilistic approach to the effects of radiations and variability of sensitivity. 101-19.

LANDAHL, H. D. On the relationship between response time and dosage of a drug as a function of its mode of entry. 121-7.

Bull. Math. Biophys., 1946, 8: No. 4 (Dec.)

LANDAHL, H. D. The half-life of a drug in relation to its therapeutic index. 129-33.

MORALES, M. F. Asynchrony of labyrinthine receptors as a physical factor in motion sickness. 147-57.

BRANSON, H. A mathematical description of metabolizing systems. 159-65.

9. Cardiovascular System

Am. Heart J., 1947, 33: No. 2. (Feb.)

MASTER, A. M. Incidence of acute coronary artery occlusion; a discussion of the factors responsible for its increase. 135-45.

REIFENSTEIN, G. H., LEVINE, S. A., & GROSS, R. E. Coarctation of the aorta; a review of 104 autopsied cases of the adult type, 2 years of age or older. 146-68.

SCHWARTZ, W. B. The treatment of shock accompanying myocardial infarction. 169-74.

MENEELY, G. R., & CHESNUT, J. L. A relation between the size of the heart and the velocity of the blood. 175-81.

KAUNITZ, P. E. Origin of left coronary artery from pulmonary artery; review of the literature and report of two cases. 182-206.

KONDO, B., KATZ, L. N. [et al.] The plethysmographic measurement of blood flow through the forepaw during experimental shock. 207-17.

ZIMDAHL, W. T., & KRAMER, L. I. On the mechanism of paroxysmal tachycardia with rhythmic alternation in the direction of the ventricular complexes. 218-27.

GEFTER, W. I., LEAMAN, W. G., jr. [et al.] The heart in acute anterior poliomyelitis. 228-39.

GEIGER, A. J., & ANDERSON, H. C. Lutembacher's syndrome complicated by acute bacterial endocarditis; report of a case diagnosed during life. 240-9.

MIDDLETON, W. S., & RITCHIE, G. The tetralogy of Fallot; an account of a patient with this condition surviving over 45 years. 250-3.

EICHNA, L. W., HORVATH, S. M., & BEAN, W. B. Cardiac asystole in a normal young man following physical effort. 254-62.

10. Chemistry; Physics

Arch. Biochem., 1947, 12: No. 2 (Feb.)

CARDON, B. P., & BARKER, H. A. Amino acid fermentations by Clostridium propionicum and Diplococcus glycinophilus. 165-80.

SCHLENK, F., & WALDVOGEL, M. J. Studies on the metabolism of some ribose derivatives. 181-90.

KYKER, G. C., McEWEN, M. M., & CORNATZER, W. E. The formation of antimalarial agents by ultraviolet decomposition of quinine. 191-9.

WINNICK, T., & SCOTT, E. M. Phosphorylated amino acids. 201-8.

WINNICK, T. The hydrolysis of phosphocreatine by phosphatase. 209-11.

NELSON, M. M., & EVANS, H. M. Growth, repro-

duction and lactation in the rat maintained on purified diets. 213-28.

NELSON, M. M., & EVANS, H. M. Lactation on purified diets. 229-39.

POTTER, V. R., & KLUG, H. L. Dietary alteration of enzyme activity in rat liver. 241-8.

BERNHEIM, F., & BERNHEIM, M. L. C. The purine metabolism of rat liver and kidney slices in vitro. 249-55

COMAR, C. L., & DAVIS, G. K. Cobalt metabolism studies; excretion and tissue distribution of radioactive cobalt administered to cattle. 257-66.

WYSS, O., & STOCKTON, J. R. The germicidal action of bromine. 267-71.

GEST, H., & KAMEN, M. D., & REINER, J. M. The theory of isotope dilution. 273-81.

SIMON, F. P., POTTS, A. M., & GERARD, R. W. Action of cadmium and thiols on tissues and enzymes. 283-91.

MITCHELL, H. H. Protein utilization by the adult rat; the lysine requirement. 293-300.

MELCHIOR, J. B., & TARVER, H. Studies in protein synthesis in vitro; on the synthesis of labeled cystine (S^{35}) and its attempted use as a tool in the study of protein synthesis. 301-8.

MELCHIOR, J., & TARVER, H. Studies on protein synthesis in vitro; on the uptake of labeled sulfur by the proteins of liver slices incubated with labeled methionine (S^{35}). 309-15.

CHIPAULT, J. R., & LUNDBERG, W. O. The presence of delta-tocopherol in hog fats. 317.

MARTIN, G. J., TOLMAN, L., & MOSS, J. d (--) Methylfolic acid displacing agent for folic acid. 318.

GELLER, J. H., & TIPSON, R. S. Importance of molecular weight in evaluation of pharmacological data. 319-22.

Proc. R. Soc., Lond., Ser. A, 1947, 188: No. 1013. (Jan. 30.)

BORN, M., & BRADBURN, M. The theory of the Raman effect in crystals, in particular rock-salt. 161-78.

BEGBIE, G. H., & BORN, M. Thermal scattering of X-rays by crystals; dynamical foundation. 179-88.

BEGBIE, G. H. Thermal scattering of X-rays by crystals; the thermal scattering of the face-centred cubic and the close-packed hexagonal lattices. 189-208.

JEFFREY, G. A. The structure of polyisoprenes; an investigation of the molecular structure of dibenzyl by X-ray analysis. 222-36.

11. Dentistry; Stomatology

Bull. Connecticut Dent. Ass., 1946, 23: No. 2. (Nov.)

CONLEY, J. J. Cancer of the mouth. 24-32.

QUITT, S. L. Correction of extreme protrusion of the maxilla and atrophy of the left mandible. 40-2.

ALLANACH, F. G. A simplified treatment for trench mouth. 45.

Contact Point, 1946, 25: No. 3. (Dec.)

BATTIN, R. F. The effect of plastic filling materials on the dental pulp. 71-6.

Dent. Items, 1947, 69: No. 1. (Jan.)

FENECH, L. J. Apicoectomy of anterior teeth. 3; passim.

NEVIN, M. Extra-oral injections. 14-8.

BOURGOYNE, J. R. Surgery of the mouth and jaws. 19; passim.

NODINE, A. M. Impacted and aberrant teeth; their history, causes and treatment. 30; passim.

NODINE, A. M. Jacksonian epilepsy with maxillary and mandibular third molars. 37.

WALLACE, J. S. The newer knowledge of hygiene in diet. 38; passim.

DURBECK, W. E. Diagnostic oral roentgenology. 45; passim.

EXPERIENCES and adventures of a doctor during the war in Hungary. 51-60.

KNOCHE, E. Dental observations in high altitudes. 60-3.

SCHWARTZ, J. R. The plastics, with special emphasis on the use of acrylics in the construction of jacket drowns, bridgework and partial dentures. 64; passim.

Dent. J. Australia, 1946, 18: No. 6. (Jun.)

SCOUGALL, S. Postural problems of the dentist. 315-32.

HARRIS, R. Dentistry and the social order. 332-48.

HILL, J. S. Acrylic eye prosthesis. 348-60.

Dent. J. Australia, 1946, 18: Nos. 7-8.(Jul.-Aug)

GABRIEL, A. Architecture of the human mandible and maxillae. 383-407.
